Practical-11

Student Management CRUD with Search and Filter

Theory :

1. **Are SELECT, INSERT, UPDATE, and DELETE operations working?**

Answer: Yes, all four database operations are working correctly to view, add, update, and delete records.

2. **Is search by name/email/course implemented?**

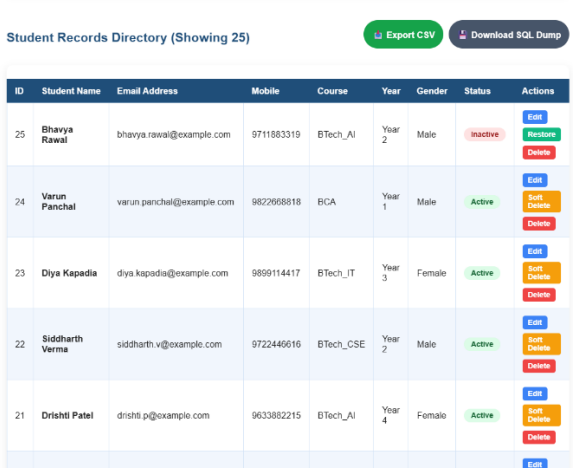

Answer: Yes, the search functionality allows users to find records using name, email, or course.

3. **Are delete operations confirmed before execution?**

Answer: Yes, a confirmation message is displayed before deleting a record to prevent accidental deletion.

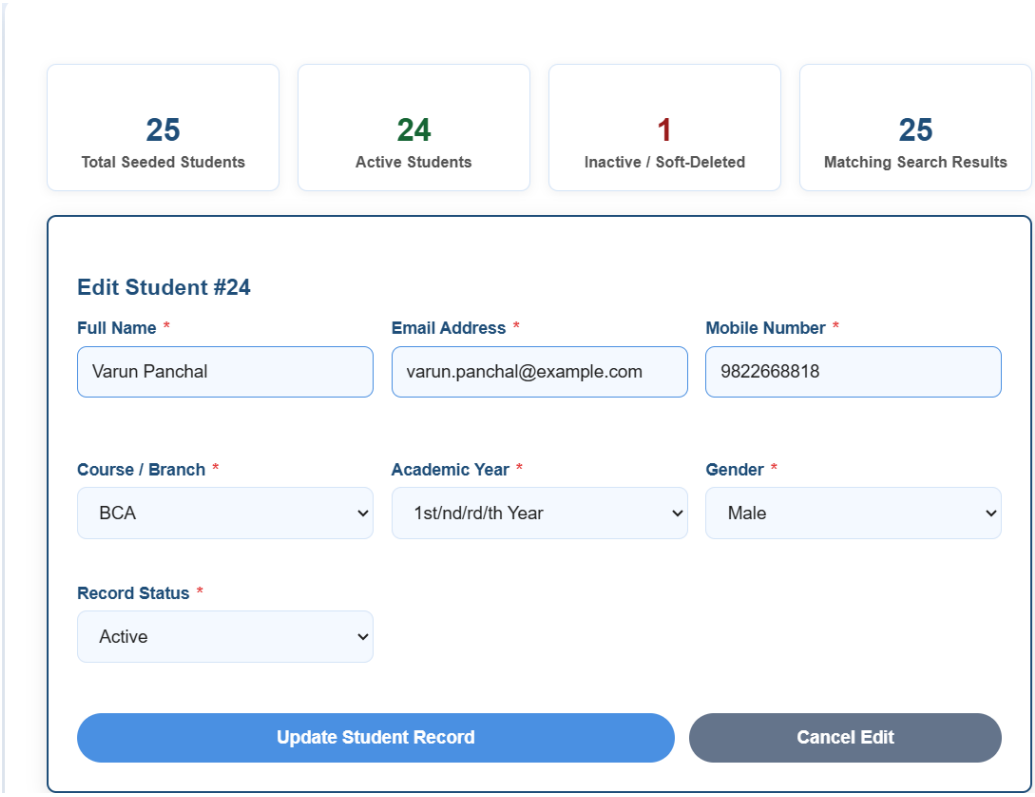

Result:

1)Sample data for student record

18	**Aditya Chudasama**	aditya.c@example.com	9811993312	BTech_IT	Year 1	Male	Active	Edit Soft Delete Delete
17	**Ishita Sengupta**	ishita.s@example.com	9866772211	BTech_CSE	Year 3	Female	Active	Edit Soft Delete Delete
16	**Harsh Solanki**	harsh.solanki@example.com	9722338810	BTech_AI	Year 2	Male	Active	Edit Soft Delete Delete
15	**Ritu Rajput**	ritu.rajput@example.com	9833441109	MCA	Year 1	Female	Active	Edit Soft Delete Delete
14	**Yash Vora**	yash.vora@example.com	9611224408	BCA	Year 2	Male	Active	Edit Soft Delete Delete
13	**Tanvi Bhatt**	tanvi.bhatt@example.com	9899887707	BTech_IT	Year 4	Female	Active	Edit Soft Delete Delete
12	**Manav Desai**	manav.desai@example.com	9744556606	BTech_CSE	Year 1	Male	Active	Edit Soft Delete Delete

3) student panel

Challenges Faced: I faced difficulties in implementing CRUD operations using PHP and MySQL. I struggled with implementing search and filter functionality for student records. I also faced challenges in handling delete confirmations and displaying success or failure messages.

Learning Outcome:- I learned to perform INSERT, SELECT, UPDATE, and DELETE operations using PHP and MySQL.
I understood how to implement search and filter functionality for student records. I also learned to handle user confirmations and display appropriate messages after database operations.
